Finish. First.

Osborn Classic Compounds are top selling products taken from the former Unipol® and Langsol® ranges.

The 14 compounds achieve excellent results whether brushing, polishing, colouring or superfinishing on aluminium, stainless steel, non-ferrous or plastic. They can be used together with all buffs in the Osborn range in a one-step or multi-step process.

OSBORN CLASSIC® COMPOUND RANGE

Process	Art.-No.	Former Reference	Name	Colour	Description	Apply on				Matrix		
						Aluminium	Stainless	Non-ferrous	Plastics	fat 1 = low 10 = high	cut 1 = low 10 = high	gloss 1 = low 10 = high
