

SIKKERHETS DATABLAD

According to (EC) No 1907/2006, 1272/2008 and Regulation (EU) 2015/830

Utstedt (dato): 16. oktober 2019

10:35:45

KLASSISK FORBINDELSE C2000 (blå)

Revidert: 10.12.2018

1. IDENTIFIKASJON AV STOFFET/STOFFBLANDINGEN OG SELSKAPET

Varenavn:	CLASSIC COMPOUND C2000 (blue)	
Generell kjemisk beskrivelse	mikstur fettsyrer, parafin, aluminumoksid, farge	
Bruk	poleringsstoff for alle overflater	
Identifikasjon av selskapet:	OSBORN GmbH Rudolf-Harbig-Weg 10 42781 Haan/Tyskland	
Nødtelefon:	Tlf.: +49 (0) 2129-9307-0	Fax : +49 (0) 2129-9307-23
	Kontakt	sschirpenbach@osborn.de

2. Fareidentifikasjon

Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]

The substance is not classified according to the CLP regulation

Physical Hazard: not classified

Human Health Hazard: not classified

Environmental Hazard: not classified

Classification according to Regulation 67/548/EEC [DSD] or Directive 1999/45/EC

According to current European laws and regulations the product is not dangerous or toxic material (based on the available data). No hazards to be particularly mentioned. Noter informasjonen som gis på Sikkerhetsdatabladet.

3. Composition/ information on ingredients

Generell kjemisk beskrivelse	mikstur fettsyrer, parafin, aluminiumoksid, farge
	Miksturen er fri for oksefett og animalsk fett.

4. FIRST AID MEASURES

4.1 First aid measures description

4.1.1 In case of inhalation:

Remove source of contamination or have victim move to fresh air.

If suffocation is serious, obtain medical attention immediately.

4.1.2 In case of skin contact:

Fjern øyeblikkelig kontaminerte klesplagg. Rinse skin with water/shower. Obtain medical attention if necessary.

4.1.3 In case of eye contact:

Immediately flush the contaminated eye with running water for several minutes. Obtain medical attention if necessary.

4.1.4. After swallowing:

If swallowed, do not induce vomiting. Skyll munnen, og drikk med rikelig vann. Obtain medical attention if necessary. Gi aldri en bevisstløs person noe i munnen.

4.2 Information about the medical attention:

Medical attention is required if adverse symptoms are shown or after a long exposure. Treatment should be symptomatic and palliative.

4.3 Indikasjon på øyeblikkelig medisinsk hjelp og spesiell behandling

SIKKERHETS DATABLAD

According to (EC) No 1907/2006, 1272/2008 and Regulation (EU) 2015/830

Utstedt (dato): 16. oktober 2019

10:35:45

KLASSISK FORBINDELSE C2000 (blå)

Revidert: 10.12.2018

Notes to physician: Treat symptomatically. Kontakt øyeblikkelig giftsentralen ved innånding eller svelging av store mengder.

Specific treatment: Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Egnede slökkingsmidler: Skum, karbondioksid, vanntåke, tørt pulver – ingen restriksjoner.
Miljørisiko: Ved brann kan følgende stoffer frigjøres: CO, CO₂, NO_x.
Særlige farer: Use adequate breathing devices. Do not allow contaminated water into drains / grunnvann.
Personlig verneutstyr: Bruk egnede verneklær, øyevern og selvstendig pusteapparat.

6. ACCIDENTAL RELEASE MEASURES

Personlige forholdsregler: Sørg for god ventilasjon.
Miljømessige forholdsregler: Unngå at produktet kommer ut i kloakksystemet/overflatevann/grunnvann.
Metoder for rengjøring / avhending: Remove, send in suitable containers for recovery or disposal.

7. HÅNTERING OG LAGRING

Local extraction ventilation is strongly recommended when used for normal polishing operation. A dust mask may be adequate for smaller quantities and/or intermittent use. Se også punkt 8. Eksponeringskontroll/personlig verneutstyr.

Store in a cool dry place (5° < t < 35°C) away from foodstuffs. Skal brukes innen 24 måneder etter produksjonsdatoen.

8. EXPOSURE CONTROLS/ PERSONAL PROTECTION

Grenseverdier for eksponering/ Se punkt 7. Håndtering og lagring" og "15. Opplysninger om regelverk". Hvis det er sannsynlig at
Åndedrettsvern: risiko for at grenseverdiene for eksponering overskrides, det skal benyttes støvmaske i henhold til BS EN 149 „Specification for filtering half masks to protect against particles“.
Øyevern: Safety glasses should be worn. Unngå øyekontakt.
Personal protective equipment: Overalls and gloves may help to prevent workers becoming excessively dirty.

8.1. Kontrollparametere

Ingredients with limit values which require monitoring at the workplace
Paraffin waxes and hydrocarbon waxes
WEL Short-term value: 6 mg/m³
Long-term value: 2 mg/m³
Additional Occupational Exposure Limit Values for possible hazards during processing:
Observe general threshold limit for dust. Details see TRGS 900
Additional information: Listene som var gyldige under produksjon brukes som grunnlag.

8.2 Exposure controls

Personal protective equipment:
General protective and hygienic measures:
The usual precautionary measures are to be adhered to when handling chemicals.
Åndedrettsvern:
Use suitable respiratory protective device only when aerosol or mist is formed.
In case of brief exposure or low pollution use respiratory filter device. Ved intensiv eller langvarig eksponering, bruk et selvstendig åndedrettsvern.
Filter P2
Protection of hands: Oil resistant gloves
Hanskemateriale i nitril
Penetration time of glove material
Den nøyaktige gjennombruddtiden skal fastsettes av fabrikanten av vernehanskene, og skal overholdes.

9. PHYSICAL AND CHEMICAL PROPERTIES

Utseende:	solid	Farge:	blå
Lukt:	karakteristisk	Damptrykk	i.a.
Smeltepunkt:	i.a.	pH-verdi:	i.a.
Kokepunkt:	n.a.	Antennelighet:	i.a.
Eksplisjonssegenskaper:	ingen		
oxidising properties:	ingen		
Relativ tetthet:	approx. 1,7 g/cm ³ at 20°C		
Solubility in water:	non soluble		

10. STABILITET OG REAKTIVITET

Stabilt under normale forhold. Farlige nedbrytingsprodukter: CO, CO₂, NO_x. Unngå kontakt med syrer.

11 TOXICOLOGICAL INFORMATION

11.1 Acute toxicity

The substance is not classified in any category as an acute toxicity hazard.

Skin contact: The product is not classified as irritant according to the criteria of Regulation (CE) 1272/2008.

Extended exposure may dry and crack the skin, and cause irritation in sensitive individuals.

Eye contact: The substance may irritate the eyes by mechanical action (rubbing), although severe lesions are not to be expected.

Ingestion: According to available information the acute oral toxicity of the substance is foreseeably greater than 2000 mg/kg (rat). Ingestion of large amounts may cause mild intestinal irritation.

Innånding: Acute inhalatory exposure (short term) may cause coughing and breathing difficulties in the event of exposure to large concentrations of the substance.

11.2 Chronic toxicity

Information given is based on data obtained in similar substances. Viste ingen kanserogene effekter ved forsøk på dyr (fremgangsmåte med vekt av bevis).

12 ECOLOGICAL INFORMATION

12.1 Ecotoxicity

The product itself is not known to be dangerous to the environment. However due to its potential generation of suspended particulate matter in water, which may cause high turbidity –with the subsequent deleterious effect to aquatic ecosystems, it must not be discharged in large amounts to surface waters.

13. SLUTTBEHANDLING

I henhold til nasjonale og lokale forskrifter skal spesialavfall leveres til et autorisert avfallsforbrenningsanlegg.

Avfallskode i henhold til EAK / EWC: 120115. All emballasje skal tømmes helt, og kan resirkuleres etter rengjøring.

Tilspusset emballasje skal avhendes på samme måte som produktet selv.

13.1 Suitable waste treatment/elimination methods

Whenever possible the product, as inert waste, shall be valorised. If this is not possible, elimination must be carried out in accordance with regional, national and Community legislation on disposal of waste and containers that have contained it. If during its use, the product is contaminated or mixed with dangerous substances, the waste generated may have to be managed as hazardous waste, as a function of the nature and quantity of the hazardous substances present.

13.2 Code of the EWL applicable: 01 04 10 Avfall i støv- og pulverform andre enn de som nevnes i 01 04 07.

Other waste that may occur as a result of the identified uses of the substance 13 08 02* Other emulsions. (Within

14. TRANSPORTOPPLYSNINGER

ADR / UN-nr.: The product does not constitute a hazardous substance in national/international road, rail, sea and air transport.

IMDG / IATA: Ikke klassifisert som farlig gods.

15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Merking i henhold til (EC)-forskrift nr. 1272/2008 Ikke relevant

Faresymboler Ikke relevant

Signaliseringsord Gjelder ikke

Faresetninger Gjelder ikke

Directive 2012/18/EU

Navngitte farlige substanser - VEDLEGG I Ingen av ingrediensene er listet opp.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16. ANDRE OPPLYSNINGER:

OTHER INFORMATION

This material safety data sheet has been elaborated according to Commission Regulation (EU) No 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

16.1 Endringer. Amendment of sections 2 and 3 as a result of the derogation of Directive 1999/45 / EC and the RD 255/2003

16.3 Other information

This document complements the technical instructions on usage, but does not substitute them. The information contained herein is based, to our best knowledge, on the technical information available on the product up to date. Brukere gjøres oppmerksom på at det er en inherent risiko knyttet til bruk av produktet til andre formål enn det det er beregnet på. This document does not exempt, in any way, the user of the product from the duty of fully understanding and applying all regulatory requirements. It is the sole responsibility of the receiver of this document to adopt the necessary precautionary measures necessary for the use made of the product. All the information contained herein is provided, exclusively, with the aim of aiding the receiver to comply with his regulatory obligations with regard to the use of dangerous substances. The present list of information must not be considered as exhaustive, nor exempting the receiver from adopting other precautions, which may be described in documents not mentioned herein, regarding the storage and use of the product, of which the receiver is solely responsible.
